# Generation genlok system scaffold

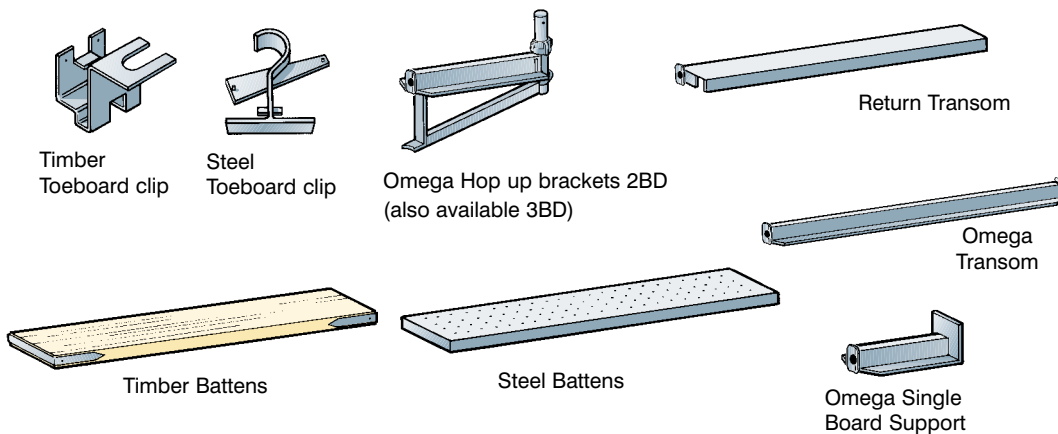

Due to its revolutionary locking action **Generation** genlok is the fastest and safest system on the market. It has a fast acting node point fastened with a hammer blow that allows up to 4 horizontals/transoms to be fastened at once. The genlok system is highly versatile lending itself to curved as well as straight structures.

## genlok components

## genlok omega components

For further information on erecting and dismantling please refer to the Generation Genlok system erection guide.
