to erect

# Generation stairtower

safer and faster access to work places

## Move Personnel Faster, Safely -

The **Generation Stairtower** available for both hire and sale provides safe, speedy access to the working level through a series of 800mm wide purpose built stairways.

Fully galvanised with landings every 2m the stair tower enables movement of personnel swiftly and safely to the work place. Handrails are automatically positioned at the correct height for safe and convenient use.

Stairtreads and landings are manufactured from expanded steel ensuring a safe slip resistant surface.

The stairtower can be built as a separate construction or integrated into other scaffolding or staging.

All staircase components supplied by **Generation** are genuine HAKI Manufacture.
