Generation MAST low level folding work platform

Generation MAST folding work platform is designed exclusively for low level access and is erected with ease to form a safe and simple work platform.

Generation MAST folding work platforms assemble and dismantle in seconds with only two components required. It's compact dimensions allowing for easy storage and transportation.

features & benefits

Automatic folding frames, with no pins or clips

Compact dimensions allow the MAST folding work platform to be moved from room to room while still assembled

6 rung frame for more choice in working heights

Spigot free frames eliminate improper use

Designed exclusively for low level access

For further information on erecting and dismantling please refer to the Generation MAST Low Level erection guide

Unique guardrail system also available, offering a fully protected working platform at all times

Serrated, non slip rungs (at 250mm centres) and trapdoor platform for safe access to the working area as standard

Weather proof, anti-skid decking for a safe working area

Equipped with 4 lockable castors

Compatible with existing MAST aluminium tower components
